EXPERIENCE

Front-end Developer

IPSUM Marketing Services, July 2019 - Present | Eastwood, Quezon City

› Design websites according to client briefs and modify designs to meet changes in client specifications

› Collaborated with graphics team and back-end developers to design, build, test and improve web products.

› Implement websites, and landing pages from concept through deployment.

› Designing and implementing HTML email templates and newsletters for marketing campaigns.

› Recommend solutions for user-friendly interface with the design team.

› Implement mobile first approach to existing websites.

› Produced visual elements of web applications by translating UI/UX design wireframes into code.

KEY ACHIEVEMENTS

› Created, optimized, and deployed a 3D product viewer feature for Trays and Canopies using ThreeJS, adding in limited panning and different hand gestures for mobile view.

› Successfully created and deployed 3 eCommerce websites from wireframe up to front-end development.

› Created and deployed a one-pager website for separate branding, successfully turnover from Web design proposal and wireframe up to front-end development.

EDUCATION
